### Prince William Sound Salmon Fishery News Release #62

**This announcement opens up additional area in the Coghill District for commercial fishing periods on Tuesday, September 4 and Wednesday, September 5. PWSAC reports making good progress towards their eggtake goal at WNH, and has provided increased area recommendations for commercial fishing in the WNH SHA on Tuesday, September 4 and Wednesday, September 5. PWSAC estimates a surplus of 10,000 to 15,000 pink salmon in the WNH SHA. All other fishing periods announced on Friday, August 31 remain in effect as previously worded.**

**BERING RIVER DISTRICT:** As previously announced, the Bering River District will open at 7:00 am on Monday, September 3 for a 24-hour period. The Bering River District is anticipated to be on a 1-2 period a week schedule dependent upon escapement and harvest trends.

**COPPER RIVER DISTRICT:** As previously announced, the Copper River District will open at 7:00 am on Monday, September 3 for a 24-hour period. The Copper River District is anticipated to be on a 1-2 period a week schedule dependent upon escapement and harvest trends.

**ESHAMY DISTRICT:** As previously announced, the Eshamy District within Eshamy Bay, west of a line from 147° 57.78' W. long., 60° 27.93' N. lat. to 147° 58.56' W. long., 60° 28.84' N. lat., will open to set and drift gillnet harvest for a 12-hour period from 8:00 am to 8:00 pm on Monday, September 3. Regulatory closed waters and anadromous stream closures are in effect in the Eshamy District.

**COGHILL DISTRICT:** The current fishing period's area restrictions remain in effect. As previously announced, the Coghill District, **EXCLUDING** waters of the WNH SHA, will remain open to commercial drift gillnet and purse seine harvest until 8:00 pm on Monday, September 3. The Coghill District, **INCLUDING** waters of the WNH SHA up to a line of buoys seaward of the barrier net, will open to commercial drift gillnet and purse seine harvest for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Tuesday, September 4, and Wednesday, September 5.

**EASTERN DISTRICT:** As previously announced, waters of the Eastern District, south of a line from Entrance Point to Potato Point, will open to commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5. Waters of the Eastern District, east of 145° 57.12' W. long., including waters of Simpson Bay and Nelson Bay, will be closed to commercial fishing during these periods.

As previously announced, waters of Port Valdez north of a line from Entrance Point to Potato Point will open to commercial purse seine fishing for a 12-hour period, from 8:00 am until 8:00 pm, on Tuesday, September 4. Waters of Port Valdez east of 146° 30.62' W. longitude will be closed to commercial fishing during this period. Regulatory closed waters and anadromous stream closures north of a line from Potato Point to Entrance Point will not be in effect during this fishing period.

**MONTAGUE DISTRICT:** As previously announced, waters of the Montague District will open to commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5.

**NORTHERN DISTRICT:** As previously announced, waters of the Northern District, excluding the CCH SHA, CCH THA, and excluding all waters of the Cannery Creek Subdistrict north and east of a line with a northwest terminus of 61° 00.97' N. lat., 147° 35.50' W. long., and a southeast terminus of 60° 59.12' N. lat., 147° 32.35' W. long., will open to

commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5.

**NORTHWESTERN DISTRICT:** As previously announced, waters of the Northwestern District will open to commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5.

**SOUTHEASTERN DISTRICT:** As previously announced, waters of the Southeastern District will open to commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5.

**SOUTHWESTERN DISTRICT:** As previously announced, waters of the Southwestern District, excluding waters of the AFK THA and AFK SHA, will open to commercial fishing for 12-hour fishing periods beginning at 8:00 am and ending at 8:00 pm on Saturday, September 1; Sunday, September 2; Monday, September 3; Tuesday, September 4; and Wednesday, September 5.

As a reminder, **all salmon that are harvested but not sold by commercial permit holders in Alaska waters must be reported on a fish ticket at the time of landing (5AAC 39.130(c)(10)).** Fish tickets have a “not sold/personal use” field to report these salmon.

**The next scheduled salmon fisheries announcement is anticipated to be at 2:00 pm Wednesday, September 5.** Permit holders are advised that unscheduled announcements based on current escapement data may occur at any time inseason.

Announcement recordings are available for **gillnet fisheries at 907-424-7535 and seine fisheries at 907-424-7345. In addition, announcement recordings are available in Anchorage at 267-2843.**

Additionally, announcements, inseason harvest data, and escapement data are available at the following web addresses:  
<http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareacopperriver.main> (Copper River homepage) or  
<http://www.adfg.alaska.gov/index.cfm?adfg=commercialbyareapws.main> (Prince William Sound homepage).

Unless otherwise specified, all openings are clock openings based on Alaska Daylight Time, which is based on Coordinated Universal Time and may be obtained by calling 303-499-7111.

The department encourages commercial permit holders to renew their licenses early and to check their CFEC vessel registration stickers to make sure that they are current.

The department also encourages permit holders to report observed violations to Wildlife Safeguard at 800-478-3377. Reports are anonymous and cash rewards may be paid for successful prosecution of violations.

PWS commercial fishers are reminded that area fisheries often necessitate fishing in close proximity to marine mammals. Under the Marine Mammals Protection Act (MMPA), the PWS drift gillnet fishery is classified as a Category II fishery. Participants in Category I and II fisheries must be registered in the Marine Mammal Avoidance Program (MMAP) to be authorized for lawful incidental, but not intentional, marine mammal takes during fishing. However, this authorization explicitly does **not** exempt holders of commercial fishing permits from the MMPA prohibition on takes of marine mammals listed as endangered or threatened under the Endangered Species Act. As a participant in the PWS drift gillnet fishery you are automatically registered in the Marine Mammal Authorization Program (MMAP) by the National Marine Fisheries Service (NMFS). As a participant in a Category II fishery, you must:

- Maintain an MMAP Authorization Certificate, or a photocopy, on board the vessel while engaging in any of the fisheries identified on the reverse side of the certificate. For non-vessel or set net fisheries, the enclosed Certificate, or a photocopy, must be in the possession of the permit holder during fishing operations. This Certificate, in combination with a current, valid state or Federal fishing permit, will serve as your authorization to incidentally take non-endangered or non-threatened marine mammals in the course of commercial fishing operations.
- Report all injuries and mortalities of marine mammals within 48 hours of returning from the trip during which these takes occurred using the MMAP Mortality/Injury Reporting Form (visit [http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap\\_reporting\\_form.pdf](http://www.nmfs.noaa.gov/pr/pdfs/interactions/mmap_reporting_form.pdf) for a copy).
- If so requested, take an observer aboard your vessel.

Purse seine and set gillnet gear are classified as a category III fisheries under the MMPA. Category III fishery participants are automatically exempted from the incidental take prohibition in the MMPA. Therefore, you do not need to maintain the MMAP certificate aboard your vessel, but must report any incidental takes of marine mammals within 48 hours of the incident or your return to port. Such reports must be made on the Marine Mammals Authorization Program Mortality/Injury Reporting Form.

Because some marine mammals are also listed under the Endangered Species Act, incidental takes are also regulated under that act and are not authorized. **All** MMPA category fisheries are liable for incidentally taking ESA listed species.

Please reference [http://www.nmfs.noaa.gov/pr/pdfs/esa\\_factsheet.pdf](http://www.nmfs.noaa.gov/pr/pdfs/esa_factsheet.pdf) for a list of marine mammals currently listed under the ESA (you should periodically check with the National Marine Fisheries Service for any changes in listed species). Under the ESA, take means to “harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct.” 16U.S.C. 1532(19); and harass means an “intentional or negligent act or omission which creates the likelihood of injury to the wildlife by annoying it to such an extent as to significantly disrupt normal behavioral patterns which include, but are not limited to, breeding, feeding, or sheltering.” (50 C.F.R. 17.3).

To reduce the possibility of incidentally taking an ESA listed species and its associated liability ADF&G recommends that:

- Fishermen participating in area fisheries remain vigilant in monitoring gear when marine mammals may be present.
- Fishermen use avoidance measures (e.g., not fishing or relocating fishing activities when marine mammals are present or likely to be present) to minimize interactions with marine mammals.
- Avoid fishing in areas where marine mammals are likely to be present at night or when visibility or weather conditions make it difficult to spot marine mammals.

For further questions concerning marine mammal regulations call NMFS at 907-271-5006.
